Strategic & Business Update

The quarter saw a continuation of strong demand across products and geographies. RB Group is continuing to monitor online sales trends and remains mindful of external uncertainties that lie ahead.

The company is focused on 4 key initiatives to generate ongoing profitable growth:

- 1) Artist acquisition, activation and retention
- 2) User acquisition and transaction optimisation
- 3) Customer understanding, loyalty and brand building
- 4) Further physical product and fulfilment network expansion.

¹ Marketplace Revenue is total revenue less artist revenue (ie artist margin).

² "Constant currency basis" reflects the underlying growth before translation to Australian dollars for reporting purposes. Redbubble sources about 93% of its Marketplace Revenue in currencies other than Australian dollars. TeePublic sources about 92% of its Marketplace Revenue in US dollars.

³ Operating EBITDA and EBITDA were the metrics reported in the prior period.

Redbubble CEO, Martin Hosking, said: “The strategic priority for the group now is to ensure we extend the market leadership we have established. We intend to invest in the customer experience to improve loyalty and retention and ensure long-term higher levels of growth. The company has the resources to undertake the anticipated investments and the margin structure to ensure it can do so while remaining profitable”.
